SKILLS

- **Languages** :Python, Javascript(ES6+), SQL
- **Backend**: Django, Django REST Framework, Node.js, Express.js, REST APIs, JWT, Socket.IO
- **Frontend**: React.js, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3
- **Databases**: PostgreSQL, MongoDB, MySQL, Redis
- **Cloud and Tools**: AWS (EC2, S3), Docker, CI/CD (GitHub Actions, Jenkins), Render, Vercel, Git, GitHub,

WORK EXPERIENCE

Hexical Technology

Full Stack Developer

Mar 2023 - Present

- -Designed, developed, and deployed 5+ full-stack web applications using Python, Django, React, and Bootstrap, improving client satisfaction by 20%.
- Optimized backend services and APIs, reducing data processing time by 30% and improving data integration reliability.
- Built responsive front-end interfaces that improved mobile compatibility and increased user retention by 20%.
- Collaborated with cross-functional teams in Agile sprints to gather requirements, design UI/UX workflows, and deliver projects on time.

Conduent Business Services

Technical Business Data Analyst

Feb 2022 - Feb 2023

- Analyzed large-scale health & welfare datasets(50+ tables, millions of records) using SQL and utilized client-specific tools such as KLG ,HRS DB maintenance tool.
- Conducted Regression testing across 20+ complex datasets, ensuring 100% accuracy in reporting.
- Delivered customized reports for clients , improving decision-making efficiency.

PROJECTS

Agriculture Support| Django,Python,PostgreSQL,Redis,JWT,Cloudnary [🔗](#)

- Built a full-stack support ticket platform for an agriculture business, with separate User, Staff, and Admin dashboards and role-based access control.
- Implemented secure authentication with OTP login and JWT cookie-based sessions.
- Refactored the codebase into separate authentication and ticket service layers with custom decorators, improving maintainability and code reuse.
- Improved performance using Redis caching and database query optimization.
- Integrated Cloudinary for media uploads and deployed the application on Render with PostgreSQL.
- Designed premium, responsive dashboard interfaces for every user role.

HelpNow React, Node.js, Express, PostgreSQL, Socket.IO, Redis, Tailwind CSS [🔗](#)

- Developed a PERN-stack platform connecting community members with helpers in real time, with USER, HELPER, and ADMIN roles.
- Implemented real-time updates and notifications using Socket.IO with Redis.
- Designed a secure REST API with JWT authentication, role-based authorization, and a relational PostgreSQL schema managed through versioned migrations.
- Built an admin panel for category management and moderation with reason-based confirmation dialogs.
- Added a seller marketplace module with location-based shop discovery, cart, orders, reviews, and Razorpay test-mode payments.

EDUCATION

Greater Noida Institute of technology

Master of Computer Applications (MCA) - 7.69

Aug-2020 - Sep-2022
